About me

I am a passionate and driven individual, with a background in website design and implementation. I have a strong skill set in both technical and design aspects, and I always strive for excellence in my work.

Professional Experience

- Day One S.A., Full-stack Developer (Contract)** Sep 2023 – Jan 2024
Athens, Greece
Transformed company website by overhauling its design and functionality using WordPress. Implemented user-friendly features, improved navigation, as well as an e-shop. All while ensuring a modern and professional appearance.
- Anywhere Inc., Full-stack Developer (Contract)** Nov 2022 – Aug 2023
Athens, Greece
I single-handedly revamped the company's website using HTML, CSS, JavaScript, and PHP. This project was a significant opportunity for me to enhance my skills in creating user-friendly interfaces and managing databases effectively.
- DataPower S.A., Full-stack Developer (Full time)** Jan 2020 – Oct 2022
Athens, Greece
Assumed full responsibility for creating the company's new website, from conceptualizing and crafting a user-friendly interface to establishing robust database management systems. <https://dpsa.gr> [🔗](#)

Education

- BSc in Information Technology - Software Development,** Sep 2016 – Jun 2021
Deree - The American College of Greece Athens, Greece
Cum Laude

Courses

- [Advanced ReactJS \(Scrimba\)](#) [🔗](#)
- [Introduction to ReactJS \(Scrimba\)](#) [🔗](#)
- [Learn UI Design \(Scrimba\)](#) [🔗](#)

Projects

My personal website [↗](#)

Developed my personal page as a practice project. By working on this, I was able to improve my skills in front-end web development and gain hands-on experience with React and Tailwind CSS.
